Arrival of the Asia.

The announcement of the arrival of the *Asia*, with news to the 20th, one week later, will be found under our telegraph head, as issued in our extra yesterday afternoon at 5½ o'clock. We were unable to get anything further. The *Arctic*'s news, due, two or three days since, is still missing.

LATER.—At 9 P. M. we received another brief despatch, stating that the *Arctic* got aground on a rock in the Channel and put back to Liverpool.

STATE EXPENSES—Extraordinary efforts have been made throughout the State, to convince the people that the present administration is corrupt in all its branches; and that the public money is squandered without regard to the interests of the people or the warrant of law. This is a matter that should be carefully investigated and the facts ascertained, that justice may be done to all parties. By an examination of the Report of the Secretary of State, of January, 1853, the actual State expenses for 1852 will be found to amount to $136,096 23. An estimate of the State expenses for the year 1854, shows the expenses of the legislature to be $125,653 57.—More than ten thousand dollars less than that in 1852.

The above is from the Portage City *Badger State*, which adds to the $125,653 57, the further sum of $77,569, being appropriations for the State Prison, the three Asylums, and the State Agricultural Society, and thus makes the total of expenditures $203,153 79.

We have again and again shown by tables of figures, item by item, that the expenditures actually made, and expenses authorized by the last legislature amounted to about $300,000. Surely it cannot be necessary to repeat these tables, in order to satisfy the people of Wisconsin of the truth of the most explicit charges made against the Legislature of "squandering the public money, without regard to the interests of the people or the warrant of law." If they are not *now* satisfied, however, they will find in their tax accounts abundant reasons for conviction.

The Habeas Corpus Case.

The following are the points raised by the defendants counsel, Messrs. Paine & Watkins:

1st. Congress has no constitutional power to legislate for the reception of fugitives from labor, at all, but the clause in the constitution, relating to that subject, is a mere article of compact between the states, depending for its observance entirely on their integrity and good faith.

2d. Admitting that Congress has the power to legislate, still the law is unconstitutional, because it provides that any person claimed as a fugitive, may be reduced to a state of slavery without a trial by jury.

3d. It is unconstitutional because it rests the official power of the United States in Court Commissioners, who are dependant officers, removable at the pleasure of the Court, and not receiving a fixed compensation, contrary to the provision of the constitution, that "The Judicial power of the United States shall be vested in one Supreme Court, and in such inferior courts as Congress may from time to time ordain and establish. The Judges both of the Supreme and inferior Courts, shall hold their offices during good behavior; and shall, at stated times, receive for their services a compensation, which shall not be diminished during their continuation in office." Sec. 1, Art 3 Con. U. S.

Mr. Sharpstein replied by citing a number of authorities, sustaining the constitutionality of the law. The arguments were submitted to the court on Wednesday, and the decision of Judge Smith will be given a week from that time.

THE EMIGRANT COMMISSIONER.—Mr. Speaker Commissioner Horn in his letter to the Madison *Democrat*, defending Gov. BARSTOW and assailing the *Sentinel*, gives at the close, the following brief account of his doings in New York:

Immigration is very lively; during the last three days of last week, over twenty thousand immigrants arrived at this point, five-sixth of whom were Germans, chiefly from Bremen, Hamburg, Antwerp and Havre; my office is filled from morning till night, and I dare say that more people call here doing business of some kind, than to all the state offices in Madison taken together. At the end of every quarter I intend to make full reports.

I have established a sub-agency in Quebec, and appointed Mr. Stangeland, of Racine, as agent to reside there until the 1st of November.

SHORT NOTICE.—The Racine *Advocate* says that there was such short notice given of the celebration of the M. & M. R. R. at Madison, that their citizens had no chance to attend. The Chicago *Tribune* tells the same story. Chicago, Racine and Janesville, are no great favorites with Milwaukee.—*Janesville Standard.*

The above paragraph must have been written in an unusually bright moment. Milwaukee had nothing to do with the invitations. The same period of intense brilliancy must have given birth to the following, from the same paper;

We were not present at that celebration, there having been no invitation to the citizens of Janesville, generally, and it is supposed but few invitations to any of the inhabitants. There was not even a request to publish, in our papers, the notice of the performances on the occasion.

The published invitation was general, to all who felt disposed to attend. If the *Standard* did not publish it, it was a very foolish piece of spite, that is all.

STR. "PEYTONA" ON LAKE WINNEBAGO.—Mr. J. B. TOURTE, whom everybody in this region knows as the keeper of the Tavern at Elm Grove, (the crossing of the M. & M. R. R. and Watertown Plank Road,) called on us yesterday and gave us a glowing account of the performance and capabilities of the str. *Peytona*, which is now doing a fine business on Lake Winnebago. He says that Capt. Houghtaling and Mr. Conklin, the clerk, are up to their business all the time, prompt and accommodating to all on board. We make the statement with pleasure.

☞ The Dunkirk *Journal* says a gentleman passed through that village *en route* for Cincinnati, with some twelve native Chinese tea cultivators, for the purpose of testing the practicability of growing tea in the vicinity of Cincinnati.

Rail Road Votes---Population and Prospects of Menasha.

MENASHA, May 30, 1854.

MESSRS. EDITORS:—A vote was taken in this village yesterday on the question of loaning its credit to the Manitowoc & Mississippi Railroad to the amount of $150,000, which resulted in its favor by a majority of 41. It will be recollected that Manitowoc has already given the same amount, and from the character of the men engaged in it, we have no doubt that Menasha will be connected with Lake Michigan by Railroad within 18 months. The distance is just 40 miles and it will undoubtedly be the best made in the State.

Menasha has about 2000 inhabitants, and the population and business is rapidly increasing.—It has the best water power in the whole West, and there are now employed upon it some *seventeen* manufacturing establishments of various kinds. In my opinion it offers better inducements to new comers than any town in the North, and on the completion of this Railroad, there is no doubt that it will go ahead and be the largest town in the interior of Northern Wisconsin.

Yours, truly, VINDEX.

The Franklin Co. Bill---Letter from E. B. Kelsey.

MONTELLO, May 25th, '54.

Messrs. Editors:

I am informed, that some correspondent, editorially endorsed, has done me the honor to connect me with the Governor, and both in some manner with the ultimate fate of a bill which passed the last Legislature, dividing the counties of Marquette and Adams.

I trust you will do me the justice of allowing me to say, through your columns, that I not only *did not* oppose the passage of the bill through the Assembly, but that I freely consulted that it should pass, as many members will certify, who very courteously enquired of me about it. When the bill passed the Senate, I was not in Madison, but was at home; and I certainly should not have left there had I felt the interest in defeating it, which your correspondent asserts.

He is also in error, in stating that Mr. Adams was Chairman of the Enrolling Committee—the Chairman of that Committee was Mr. Loy of Brown County—whom I have seen make too many reports not to remember.

The insinuation conveyed in the article, that there was any understanding between the Governor and myself, in regard to the bill, is entirely and most contemptibly false.

I will admit that your correspondent is correct in saying that MONTELLO is 'centrally located,' and had he added that it possessed the finest water power and was surrounded by the best country of any Village on Fox River, above Oshkosh, it would have been some atonement for the untruths he did tell.

Yours &c., E. B. KELSEY.

Should Minors Think for Themselves?

Messrs. Editors:

The meeting of the boys of this city at the school house to make resolutions for freedom, seems first in the mind of many as though it were a matter of some consequence.

Now, I have been taught from my infancy, to believe that the province of youth is to receive instructions, thereby preparing the mind for the more perplexing determinations of age, when all of the cultivated reflections of the mind of man are necessary to form the maturer decisions of mankind.

Why then, is it so commendable to inculcate ideas in the juvenile mind, which are to transplant its genius, and prevent the vivacity of its action? Better extend to them ample opportunities of intellectual attainment, without stimulating them to an incoherent conclusion, not the result of mental exertion, but of mere incidental prejudice.

Your's, Truly, B. R. A.

[With regard to the subject referred to in the above communication, *viz.*: the meeting of minors to protest against the Nebraska Bill, we think the case is one which calls for the earnest action of *all* who have any kind of influence to exert, by vote, or by speech, and if the meeting in question was the spontaneous movement of the young men of Milwaukee, who are soon to be called upon to exercise the right of suffrage, and not the result of outside influences which went even to the dictation of resolutions for the meeting, we should be glad to witness more of such gatherings. We should be sorry to believe that there are many young men between the ages of 16 and 21, born and educated in the United States, whose opinions are not as intelligently formed as are those of hundreds of thousands of persons who are voters long before they have had an opportunity to study the genius of our institutions. *Ed. ☞ We see it stated that all of the Representatives from Wisconsin voted against the Nebraska bill, and also that not a single Whig member from the Northern states voted against it. Forty-one Democrats from the North voted for the bill!! A day of reckoning is coming, and we wish these facts to be recorded for future reference.—*Monroe Sentinel (Dim.)*

Even the ranks of the Wisconsin delegation were broken, Mr. Macy having dodged the vote.

HUMILIATING CONFESSION.—The Washington *Sentinel*, a democratic paper in good standing at the federal Capital, and conducted with marked ability and independence, says: "there is no disguising the fact that the democratic party, powerful and triumphant as it was twelve months ago, is now supine, indifferent, and distrustful. There is no disguising the fact that the elements of opposition have been growing every day. A universal distrust has grown up among the people, even among the truest and sternest democrats, who believe that they have been duped, defrauded and cheated, and that high places of the government are surrounded by mean, low and contemptible men, that keep off from the higher sources every expression of honesty and disinterestedness, and do but "crook the pregnant hinges of the knee, that thrift may follow fawning."

LIQUOR SELLING IN NEW YORK.—There is a prospect that the number of licensed liquor selling establishments in the city of New York, will be greatly reduced. The six thousand nine hundred and five licenses, allowing the sale of liquor by the glass, have expired. "Although," says the New York Herald, "the number of licenses has been reduced, yet, as far as the Board of Excise have gone, they have supplied the city with a plentiful crop of murders, rows, and fights for the coming year: In eight wards, fifteen hundred licenses have been granted, viz: In the First, 255; in the Second, 89; in the Third, 169; in the Fourth, 375; in the Fifth, 150; in the Sixth, 379; in the Seventh, 213; in the Eighth, 253. The Alderman and Councilmen in the ward have refused to grant any licenses at all. Alderman Voorbis says that in two days not one of the liquor sellers in this ward has been able to satisfy him that the sale of liquor has ever benefitted any of the inhabitants of that ward; and that until that is proven, no licenses will be granted."

A CULINARY IDEA.—As many writers have taken the trouble to define what a wife ought to be, we may as well add our idea on the subject to the general fund. A wife should be like roast lamb—tender and nicely dressed.—*Exchange.*

From the Santa Fe Gazette.

Another Fight with the Apaches—Battle of Agua Caliente Creek.

Maj. Nichols, Asst. Adjutant General, has kindly placed in our hands the official report of Lt. Col. Cooke, of his fight with the Apaches, at Agua Caliente creek, Saturday, the 8th inst. The report was brought in by a dragoon who left the camp the same evening of the battle, and arrived in Santa Fe Wednesday the 12 instant.

Lieut. Col. Cooke, with nearly two hundred men, had been following the trail of the Apaches for some days on the west side of the Rio Del Norte, now and then obtaining information of them. From Ojo Caliente, where last heard from, he marched in a north-west direction, until the afternoon of the 8th inst., when he came in sight of the enemy's camp. It was almost a surprise, as he got very near them before he was discovered. They had only time to send off their women and children and part of their baggage before the troops were down upon them.

They immediately took post in a very strong and almost inaccessible mountain position; but the troops bravely charged them, drove them from it, and pursued them for about a mile and a half, fording a difficult stream, passing over a very broken country, and keeping up a running fight. All the lodges and camp equipages, a large quantity of provisions, and many of the horses of the enemy fell into the hands of the troops; and they also left behind a number of the arms and equipments lately captured at Cieneguilla, which were recovered by Col. Cooke. Six dead Indians were found on the field, but it is not known whether they sustained any further loss. Of the troops one man was killed—private Casey, company G, First Dragoons, and one man of the Second Artillery, severely wounded. The day of the fight, the troops marched through snow, two feet deep, and it was also snowing some of the time.

Maj. Carleton, with a reinforcement, joined Col. Cooke, about an hour after the battle, and will unite with him in the future pursuit of the enemy. From the crippled condition of the enemy's resources, we have every reason to believe they will again be overtaken, and brought to a general engagement, which we hope, will bring the war to a close.

The result of the expedition of Col. Cooke, thus far, makes it a fixed fact, that Indians in New Mexico can be caught by the troops, which circumstance alone will have a beneficial influence on the other tribes' who, heretofore, have considered themselves quite secure from attack from the soldiers.

LATER INTELLIGENCE FROM THE SEAT OF WAR.

An express from the seat of war, arrived at head quarters, Thursday evening, with news to the 12th inst. Since the action on the 8th inst.—Col. Cooke and his command have been in active pursuit of the enemy, whom they pressed so hard they were obliged to separate into small parties to save themselves. They led the troops over the most inaccessible country in New Mexico, with snow in some places three feet deep; and Kit Karson, who is their guide, says it is the roughest country he has ever seen. The Indians have suffered very much, and their bare feet prints were seen in the snow.

When the Indians separated they took a direction south-west, and it is supposed they will attempt to make their way to the southern part of the Territory. The troops were expected to reach Abiquin on the evening of 13th, where they would wait further orders; and a supply of provisions left Santa Fe, Friday morning the 14th, for that place under an escort of dragoons commanded by Lt. Garland. From indications, it is supposed the Mescalero Apaches have joined the Jicarillas and have been present with them during the campaign.

Carpenter's Press.

Col. ATWOOD, of the Madison *Journal*, who has recently, in Boston, examined the press which Mr. Carpenter is having built in that city, gives the following minutes of the claims of the inventor:

1st. It is expected that it will feed itself more accurately and perfectly than it can be done by hand. This will be accomplished by having the paper made in webs and rolled on to a cylinder, instead of being cut into sheets.

2nd. The sheet may be worked upon both sides or not, without leaving the machine. A change may be effected from working one side to both by the turning of a screw. This is not effected by the printing of both sides at once, but the machinery is so constructed that the sheet after passing through once, is drawn back and printed upon the other side, and then thrown out.

3d. The same speed and wear of machinery, in this press, will accomplish double the amount of work of any other cylinder press, as the arrangements are such that a sheet is printed as the bed plate passes either way.

4th. A registering apparatus, very simple in its nature, is so constructed, as to be as perfect as can be made upon a hand press; no matter how rapid the press runs. This of itself is a matter of vast importance, and does away with one of the greatest disadvantages of the cylinder presses. A counter is also attached, which may be set to give the alarm, by the ringing of a bell, to any given number of tokens that may be desired.

There are many other very essential improvements claimed for this press, which I cannot now stop to detail; but I have given what seems to me most important. Mr. Carpenter has a small press now in the city, which has been tested, and, although it was imperfectly constructed, has satisfied many of the best printers in the country, that there is no mistake but his press will work, and accomplish all that he claims for it. If so, the craft will realize an important advantage from it, and friend Carpenter will attain a name and a fortune, which he will well deserve; for no man ever devoted himself with more energy to any work than he has at this; and I trust he will prove successful. From all the examination I was able to give the press, I must say, that no reason presented itself to me why it will not work to complete satisfaction.

WISCONSIN COPPER REGION.—The St. Paul *Minnesotian* announces the discovery of fine mineral lands by a party of gentlemen from that city who went early this year and pitched their tents in Douglas Co., in this State, near the mouth of Lef. Hand river, not far from the bay of the St. Louis river. They call their settlement "*Endoian*"—meaning in Chippewa, "My Home"—and are talking of expending their hundreds and thousands in the erection of piers, &c., to accommodate the shipping that may anchor at the wharves of the embryo city.

The *Minnesotian* says, with reference to the mineral region:

It is situated in two townships, from twelve to eighteen miles from the mouth of Left Hand river. Nearly all the lands of these two townships that have mineral upon them have already been pre-empted by miners from Ontanagan, and other mineral locations below upon the Lake. Mr. Ely has in his possession specimens collected from ten different localities, which we have examined; and some of which are pronounced by competent judges to be as rich as were the first specimens procured from the richest veins at Ontanogan.

The pre-emptions above alluded to, are in township 47, north of range 13 west of the 4th principal meridian; and township 47, north of range fourteen west—the only townships in this mineral district yet subdivided west of the Brule. The falls of Black river are near the western extreme of the explored tract. For grandeur of scenery these falls are not surpassed by any locality in the North-West. The entire fall is about 200 feet.

Seventh Circuit-Official Canvass.

The returns from the various counties of the 7th Judicial Circuit have been received, but have not yet been canvassed by the State Officers. We have obtained the following table of returns as made to the Governor:

Counties	Cate.	Hanchett
Portage,	343	394
Waushara,	208	159
Waupaca,	169	167
Marathon,	219	157
Adams,	216	202
	1165	1079

An alias return has been received from the town Grand Rapids, giving Cate 78 votes and Hanchett 111. But its authenticity is doubtful, as it only purports to be a copy, the original of which has never been received. It will be thrown out.—Without in, Cate's Majority is 86; including it, his majority is 53.—*Madison Democrat.*

PASSAGE OF THE NEBRASKA BILL.—The Nebraska Bill has passed and the Missouri Compromise is repealed! The country has raised its voice loud and long against such a result,—the true friends of freedom have fought nobly and well in the House of Representatives to avert this infamy from the country, but all has not availled; and again we must submit to see ourselves humble and the most sacred of compacts broken. Yet so it is and will continue to be while the people permit a set of trading, trafficking, unprincipled set of politicians! Men who hesitate at the commission of no evil, however enormous, and willing to make any sacrifice however great, that will promote for a brief time their power and aggrandizement. Every villain of them should be marked and scourged with thongs from the Temple they have desecrted.—*Potosi Republican.*

LIEUT. BONAPARTE.—Young Bonaparte, (son of Jerome Bonaparte and Miss Patterson of Philadelphia, divorced for "reasons of state,") who has just been invited by Louis Napoleon to visit him, is an officer in the U. S. Mounted Rifles, and stands 6 feet 2 inches in his stockings, and is well proportioned.

☞ We publish with pleasure the following note from Mr. E. C. HULL, editor of the Beaver Dam *Republican*, bearing impartial testimony to a busy route of travel, a model captain, and a fine boat:

MICHIGAN CITY, IND., May 29.

Messrs. Editors Sentinel:

Having occasion to travel a little, and being somewhat of an observing individual, I have thought that some of my observations might be of interest to the travelling portion of your readers.

I left your city yesterday morning on the steamer *Arctic*. The weather was calm and she glided through the water with the utmost ease.—Everything on board was in the most perfect order, which is significant of the fact that Captain BUTLER *attends to his own business*. The boat is a perfect palace, and persons travelling on that route will do well to avail themselves of her accommodations.

Stopping at Racine, Kenosha, and Waukegan, we arrived in Chicago at precisely four o'clock, making the run in seven hours, including stoppages, and a more delightful ride could hardly be anticipated.

At half past eight o'clock I took the Express train on the Michigan Central railroad, and arrived here at twenty minutes past ten, a distance of fifty-three miles. Everything for the comfort of passengers appeared to be provided, and I was better used by the conductors than I have been at other times on this road.

Michigan City is a sandy place, at the head of Lake Michigan, and is of no very great importance in any particular point of view. The Cincinnati road branches here, and at ten minutes after eight o'clock this morning, I expect to leave on it for Lafayette.

This is not a paid-for puff, as those of your readers who are acquainted with my position as an editor might imagine, for I paid my fare in Milwaukee to Lafayette, $7.60.

Your's Truly,
E. C. HULL.

St. Anthony Items.

From the St. Anthony Express.

It is estimated that two thousand people have arrived in the Territory the present week by water and land carriage. The immigration has now fairly commenced, and may be expected to continue undiminished for the next three months.

L. C. Walker has been appointed Postmaster at this place—a good appointment; and we are assured that our postal matters will be hereafter attended to with the strictest promptitude, and every effort to oblige, consistent with the duties of the office.

THE FIRST RAILROAD.—The first railroad in Minnesota is about to be erected on Nicollet Island. It will be eight hundred feet in length, and will be equipped with a car to run constantly between its two termini. St. Anthony enterprise is certainly beginning to wake up.

The Falls, having assumed their summer dress, will be "at home," ready to receive company the balance of the season. We are happy to state that the immense jam of logs, that have so long disfigured the beauty of the cataract, will probably be removed the present season. A. Godfrey Esqr., being now engaged in negotiating for the same, preparatory to their removal.

NEBRASKA BILL FINALLY PASSED.—The iniquity is consummated. The Slavocrats have triumphed. Compromises are at an end, and henceforth will be of no binding force or effect. They who have always held up the Missouri Compromise as a compact not to be endangered by the remotest breath of agitation, have themselves agitated until it has been ingloriously trampled in the dust. The slave power has shown more convincingly than ever that a violated faith is of less than atomic insignificance in its estimation, when antagonistic to its own supremly selfish interests, and—our cheek burns with shame while we write—there are beings who claim to represent the free sentiment of the North in the Halls of Congress who have fawningly done the bidding of their Southern masters, betrayed the confidence of their constituency. But thank God, Wisconsin has not thus been degraded.—*It will yet be known that there is a* NORTH as well as a South.—*Sheboygan Times.*

THE DEPOT OF THE EAST SIDE OF THE RIVER.—A freight and passenger Depot building is to be erected immediately upon the ground selected some months since on this side of the river for that purpose. The building is to be constructed of brick, 150 feet in length by 30 in breadth, with a projection of the eaves or roof over a platform 8 feet in width on each side. A track is to be laid on each side of the building. The building of this structure has been let to Mr. P. B. Bassford for $4000. Mr. B, we understand, has taken Mr. Neff into partnership in the work, and the names of these gentlemen, who are known to be thorough-going, practical mechanics, are a sufficient guaranty that the work will be done in the best manner, and within the specified time.

We neglected to mention last week that the contract for building the Railroad bridge and Depot building on the west side of the river was let to Mr. Bond for $15,000, and who will forward the work in the most expeditious manner. We congratulate our citizens upon the prospect of ample accommodations for storing all merchandize, produce, &c., brought in by railroad or from the country.—*Watertown Chronicle.*

AND STILL THEY COME!—For the past six weeks there has been a constantly moving caravan passing through our streets bound for the rich and beautiful country north of us. It is not an uncommon occurrence to see fifteen to twenty covered wagons filled with the household goods, wives and babies of enterprising and intelligent looking farmers, followed by a handsome stock of cattle moving to some point in the valleys of the Lemonweir, the Yellow River or the fertile and lovely little prairies of Adams county.

Persons passing through on the route of the La Crosse Rail Road, from this point to the Mississippi, say the entire aspect of the county has been changed the present season—new farms opened, houses built, fields fenced and put into crops, and the whole route presents evidence of enterprise which no other country but free America can boast of.—*Portage City Badger.*

The *Wisconsin* speaks of the laws of our Legislature as encouraging Literature. Any person who reads the laws will conclude that literature needs encouragement.—*Kenosha Telegraph.*

That is so. We have been under the melancholy necessity of reading proof of the laws over twice, once in the newspaper, and once in the forthcoming volume; and if any person will study the phraseology, and note the grammar of the acts passed at the last session, he will be satisfied that the practical results of our system of common schools are not appreciable as yet. We think they need house than those of any previous session.—*Madison Journal.*

FIRE AT THE CHIPPEWAY AGENCY.—Hon D. G. Morrison has arrived from the North with news that the warehouse attached to the Chippeway Agency, near Crow Wing, was destroyed by fire on Saturday night last. The contents of the warehouse, consisting of Indian goods, provisions, &c., to the amount of $12,000 were destroyed. The noted chief, Hole-in-the-Day, was arrested on suspicion of having set fire to the buildings.—*Minnesotian.*

The immense stage loads of strangers, brought daily into our village, exceeds anything before seen at this season since the settlement of the place. Not unfrequently these large and splendid coaches of Willoughby & Powers, or Pattison & Benson, come up six or eight times a day, loaded to their utmost capacity with admiring passengers, who are delighted with the country. Still, however, there is room for a few more of the same sort.'—*St. Anthony Express.*

DEPOT GROUNDS &c.—The agents of the Milwaukee and Horicon R. R. are actively engaged upon the line of their road in procuring the right of way, as we learn, with great success—having procured, for nothing, a very great proportion of the whole line of the second section.

A Corps of engineers have been amongst us a portion of the past week, leveling and laying off the several grounds proposed for the Depot preparatory, as is said, to a final location within a few days.—*Ripon Herald.*

A NEW CRAFT.—On Wednesday last, we noticed a new craft in our water, called the Ruby.—She was built by I. M. Naracong, of this place, and sits in the water like a duck. Lucian D. Bryan, Esq., is her owner, who intends to make her a pleasure yacht. Mr. Naricong is one of the best ship-builders in the west, and we are gratified to hear that he is kept pretty busy. He has now one on the stocks for Capt. McKinnon.—*Menasha Advocate.*

The following memorandum was written on the envelope of a package of Weekly True Deltas returned to us yesterday by a postmaster in Mississippi;

"Mr. W——is dead. His wife is drunk; the estate is insolved, and nobody calls for the paper. You had beter stop it."

We have stopped that paper.—*N. O. True Delta.*

CIRCUIT COURT---May Term.

JUDGE HUBBELL PRESIDING.

Thursday, June 1st.

The trial of Connaughty still proceeds slowly. In the forenoon Mr. Mallory opened to the jury, the nature of the defense, and proceeded to call witnesses. But little interest is manifested; but twenty persons were in attendance in the forenoon.

Jack Folleson, who was convicted of larceny from the person, was brought into court and sentenced to four months imprisonment in the county jail.

POLICE COURT, JUNE 1st.

BEFORE CLINTON WALWORTH, ESQ., POLICE JUSTICE.

The case of the City vs. John Schleiger, arrested some time since for keeping a disorderly house, and the case held open, was settled the defendant paying costs.

THE STREETS.—We learn from Ald. HADLEY, of the First Ward, that the contracts for completing the streets and walks on Mason St. have been made, and the work will be speedily accomplished Also that the good work of paving East Water St., from Wisconsin St. to the Market House, is to be put through at once. Good, so far!

Going down East Water St. yesterday, we were accosted by at least a dozen persons doing business between Huron and Buffalo Streets, asking us to "call attention" to the condition of the walks and roadway. In the name of cholera and all sorts of putrid fever, gentlemen, what would you have us do? Have we not called attention to that street almost daily for months? And does it not, of itself, "smell to heaven?" Is it not full of holes, and ponds, and quagmires, and lined with ditches reeking with filth, into which last an occupant of an adjoining store now and then throws a load of gravel, retaining all of the filth, to be exhaled in vapor through the warm hours of the day? Is that street not a disgrace to the city, and to a Christian land? But what do the Aldermen care? They can go on with the work of grading down huge banks of clay in portions of the ward where nobody lives, and filling in streets in the marsh where nobody will travel these three years, but have no eyes to see, no ears to hear, no noses to smell, no money to pay for attention to the wants of, the principal thoroughfare of the city! What shall be done with them? The worst harm we wish them is that they could be compelled to sit crosslegged on a dry goods box in the ditch on the west side, between Chicago and Buffalo streets, until they concluded to pave East Water Street, as it ought to be.

It is a positive fact that cases of cholera are daily occurring in towns not far from us, and the condition of that street is just the one to foster that fearful pestilence. Will the Aldermen take warning?

MEETING OF COMMON COUNCIL, LAST EVENING.—Alderman Hadley in the Chair.

A petition was presented, and signed by upwards of two hundred and fifty names, embracing nearly every business firm in the city, asking for the appointment of a special police to preserve order, and to allow passengers to land from Steamboats and Cars in peace, and to prevent rows and fights on the piers &c. Referred to the committee on Police.

Also a petition to have a draw made in Cherry St. Bridge; referred to Bridge committee.—Chairman of committee on Fire Department reported on the petition of No. 1, for a new engine for that Company—to refer the petition and report of committee to the Comptroller, to find out as to the ways and means of the city. Resolution to allow John Ruges $1,000 as part payment for building Walker's Point Bridge as soon as the bridge committee accept the bridge; passed.

Resolution allowing Schoeffler and Wendt and S. M. Booth their old bill for printing at 37½c per square for first insertion, and 18¾c for each subsequent one, was passed.

TALFOURD'S CRITICAL AND MISCELLANEOUS WORKS; Third American Edition, with additions; PHILLIPS, SAMPSON & Co., Boston.

We are indebted to Messrs. A. WHITEMORE & Co., for an early copy of this valuable collection of the writings of the late Sergeant Talfourd, collected from the Reviews and other mediums by which they have been made public.—Mr. Talfourd is well known as the author of the tragedy of "Ion," but from the fact that his essays were published in the "New Monthly Magazine" and one or two other Journals, which are not republished in this country, the American public has not become well acquainted with them. Just now, when the light of his great mind has gone out, shining brightly to the last, and when the remembrance of the kindly heart which was pleading to the last for the cultivation of sympathy between the rich and the poor, is fresh in the minds of the people, this collection of his essays is very timely, and must be popular.

JUVENILE MUSIC CLASS.—Prof. SANDFORD requests us to state that a Juvenile Music class will be organized on Saturday morning, at the hall of the Milwaukee University.

HARDWARE.—Attention is invited to the advertisement of C. W. NEWTON, who has removed his stock of Hardware to the store formerly occupied by W. H. BYRON & Co., where he is ready to wait upon his old customers and such of the public as are looking for goods in his line. Mr. NEWTON, we believe, is a man in whom the fullest confidence can be placed, has a large and well selected stock of goods, and deserves to enjoy an extensive trade.

☞ The steamer *Traveller*, Captain Cooper, arrived from Chicago, yesterday afternoon, with upwards of *four hundred passengers* and nearly *one hundred tons* of freight.

PUTNAM FOR JUNE.—We are indebted to ARNOLD & WILSON for a copy of Putnam's Magazine for June received last evening—an excellent number.

☞ We have received a letter signed Wm. Hard denying the statements set out in the allusion to the nuisance in the Third Ward, over the signature "Many Citizens," and exonerating the Marshal from blame Mr. Hard states *he* was the writer of that letter,

For the Sentinel.

MESSRS. EDITORS:—Having noticed in the *Sentinel* of 1st June, an article addressed to the City Marshal by "Many Citizens," respecting the abatement of a nuisance in the Third Ward; and that "Many Citizens" had again and again, called the attention of the Marshal to its abatement; the Marshal begs to inform "Many Citizens," that he never received the written or verbal information alluded to. The Marshal would inform "Many" and all citizens, that he holds his office with the intention and desire of fulfilling all its duties, and that it is quite unnecessary to address him thro' the public press, more particularly as he is quite approachable, and does not feel so far removed from ordinary citizens, as to make it necessary at any time to speak to him thro' the columns of the press. The Marshal's office is with that of the Sheriff, where all complaints can be made either in writing or verbal, without giving offence to the Marshal,

Fugitive Slave Case in Boston.

Boston, May 30.—The principal feature in the trial this morning, is that several witnesses testified to seeing Burns the 1st of March, while the eminent alleges he escaped from Alexandria on the 24th of March.

Boston, May 31.—The case of Burns was resumed this morning. The admission of Burns that he was in this city two months since, was allowed to be put in as evidence.

Messrs. Hale and Giddings, counsel for the defence, are now in the Court room.

P. M.—It is rumored that the sole witness for the identification of Burns has left the city. Mr. Dana' speech occupied two hours. He argued to show the probability of perjury and kidnapping on the part of the claimant.

Col Suttle, and his witness will, it is said, be tried on three charges. It is said that $4,000 was offered for the slave and refused.

The Free Democratic State Convention met in the new City Hall, to-day. 2,000 persons present. A. N. Fisher, President *pro. tem.*

The fugitive Burns, if given up, will probably be sent away in the Revenue Cutter Morris.

From Washington.

Washington, May 31.—Senator Badger presented proceedings of meeting, at Wilmington, in favor of Congress' granting an appropriation for Cape Fear River.

House.—Indian appropriation bill, passed by the Senate, was returned to the House.

Mr. Oliver introduced a bill for laying out and surveying lands in Kansas Territory.

House resumed the consideration in Committee of the Whole of the Pacific Railroad Bill.

The Senate continued the resolution of inquiry as to the propriety of granting a pension to the widow and children of Bachelder, which was passed.

The Union, of this morning, copies extracts from Democratic journals in New Hampshire, to show that Morrison and Kittredge were not sustained by their constituents in voting against the Nebraska Bill.

Mobile, May 28.—A dispatch from N. Orleans announces the receipt of a letter in that city from San Antonio, Texas, which states that Indians are rallying under Wild Cat for a general war with the white settlers. Much alarm excited.

New York, May 31.—The correspondent of the Times telegraphs that a "strenuous and systematic effort is making in Washington and Alexandria against Senator Sumner in relation to the Boston difficulty. Senator Sumner has himself been several times warned to-day of personal danger and assured that persons bearing a close relation to the Administration are inciting people to violence against him.

Northern men are much excited, and if an outrage is committed, it is feared that there will be serious trouble.

The Europe sailed to-day for Liverpool with 155 passengers and $656,277 in specie.

Cincinnati, May 31.—Three daughters of the Rev. Mr. Perry of Harrisburgh, Kentucky, were recently burnt to death by the explosion of a camphene can. They were aged 9, 17 and 19 years.

WASHINGTON, May 30.

The amount of treasury drafts redeemed last week was over $1,000,000.

Thirty kegs of silver, containing $30,000 each, and three kegs of gold of the same size, but containing $100,000 each were received by the treasury department from the Philadelphia mint.

LOUISVILLE, May 30.—The cholera broke out at Nashville, Tenn., Sunday, and 15 deaths are reported to have occurred.

New York, May 31.

At a public meeting held in Philadelphia on Tuesday evening, ex-Gov. Johnson said he had in his pocket a letter of the Hon. James Buchanan, in which he had expressed the opinion that if that solemn compact was violated (the Missouri Compromise,) the Union would be dissolved.

WILMINGTON, May 31. Three of Dupont's powder-mills blew up this morning, inside of the city limits. 15 horses and three individuals were killed, and several wounded. Seven dwellings and six stables were shattered to pieces, and about 20 others badly injured.

Washington, May 30.

Gov. Seward gave a dinner to Lord Elgin to-day. Mayor Crampton, Chase, Shields and other were present.

CROPS AND APPEARANCES GENERALLY.—Since our last issue we have had an opportunity of noticing the appearance of a considerable extent of country, and as far as an unpracticed eye can determine, the evidences of abundance are very fair. The drought in the early part of spring was somewhat unfavorable for small grain, but the retarded growth will be made up by the late refreshing rains and present genial suns.—*Platteville American.*

THE RAVINGS OF A CRAZY MAN.—The editor of the Washington *Sentinel* betrays symptoms of insanity. In speaking of the People of the North, their opposition to the Nebraska swindle and their probable demand for its repeal, he says:

"Let them move. The more they show themselves, the more they will be despised. 'Repeal!' Let them raise that cry, for it means the repeal not only of the Nebraska bill, but of the Constitution and of the Bible."

Who—let us inquire, will despise them? Why the Propagandists of Slavery, who have always despised freedom and its advocates. So, that is a matter of very little account. The insanity of the *Sentinel* leads it to confound matters terribly. Placing the Nebraska bill in a category with the Constitution and the Bible, is getting the latter into very disreputable company. *Buffalo Express.*

BUSINESS AT GRAND HAVEN.—From our Marine reporter we learn that there were forty-one vessels besides several steamers and propellers in port last Saturday, being a greater number than was ever before in our harbor, on any one day. Adverse winds had prevented any departures for some time, and that circumstance accounts for the large collection. The commerce on our waters has met with a great increase this season, and some idea of its present importance may be formed from the fact which we have noted. This increase may be attributed mostly to the great impulses which the lumber trade has lately received, although otherbranches of business have contributed to the result.—*Grand Haven Times.*

NEW ORLEANS, May 31.—Our city is much excited to-day owing to the failure of several well known leading houses. Among those announced are Wright, Williams & Co., Cotton factory—Liabilities $260,000. Another failure is that of Greenwood & Co., Forwarding and Commission merchants. It is reliably stated that other Cotton Houses will follow.—the above accounts have connections in the North and in Europe.

☞ A Pennsylvania paper, noticing the death of a young lady, concludes thus:—

"She was respected and beloved by her friends and all who knew her; after suffering for a long time under this painful malady, she has departed to her final rest."

DEATH FROM VEXATION.—The Turks appear to be already disgusted with the manners of their French and English allies. A funny story is related of the Pacha of Gallipoli in this wise:

"I am told that the scene of the landing of the British and French troops at Gallipoli is very original. The clamorous demands of these carnivorous men of the north greatly astonished the Turks. 40,000 oxen! Mashallah! You will perhaps already have learned that the Pacha of Gallipoli is dead. I am positively assured that he died of vexation. Rustem Pacha has been named his successor, and he says his head is splitting at the multifarious demands of the allies.

The Turks of Gallipoli stare aghast at the Anglo-French army. Where do they come from? Are more to follow? And when told that these are only the vanguard of their friends and supporters they open wide their mouths, and call on Allah in despair.

Haste and hurry are unknown to the Turk. What he loves is his ease. Before entering into conversation, a quarter of an hour is passed in a preamble of coffee drinking and pipe smoking; and when talking begins it is a slow process, and each difference of opinion is generally settled by that universally applicable word, 'Bagalum,' (we will see.) Now just picture to yourself the unfortunate late Pacha of Gallipoli, surrounded by some hundreds of garrulous French and Foglish. It was so unusual an occurrence—he could not foresee such a contingency—he knew no precedent—that he gave in, fell sick, and in three days he was dead. It was the only way to get peace."

☞ Mr. JOHN TOPE, one of the divers employed upon the wreck of the *Erie*, lost his life on Friday afternoon, while experimenting with a sub-marine armor upon which he had endeavored to make certain improvements. He went down three times, complaining in the first and second instances that the armor did not work to suit him and persisting in the attempt. Thus he secured the death he tempted. When he was drawn up for the last time and the helmet removed, blood was passing from every orifice of the face and head. The sight is said to have been most horrible. Tope lived in Boston, and leaves a family.—*Buffalo Express.*

FIRE INSURANCE COMPANY.

Office 138 East Water Street.

Capital over $165,000—in Cash and Premium Notes

THIS Company offers unrivalled facilities for the insurance of Buildings and Personal Property against fire. The advantages offered are security beyond the reach of discount since, as the real estate insured is by law bound for the assessment made to cover losses beyond the power of evasion. Every person insured is a member of the Company, and entitled to one vote. The cost of insurance does not exceed one-third as much as in Stock Companies, saving nothing of the increased security and the incomparable ease with which losses are settled. During the last five years, this Company have issued 2630 Policies, and made but three assessments at a cost to the property insured, not exceeding two mills on the dollar. Its business is principally confined to this State.
